

24,000 mile Service / 24 month

After over 24,000 miles of high performance driving, a 24k service check is recommended to keep your GT-R running in top form.

- Perform engine diagnostic
- Inspect throttle chamber
- Inspect air pump cleaner
- Inspect steering, linkage, axles and suspension components
 - Inspect safety restraint system
- Inspect brake pads, rotors, lines, and cables
 - Inspect drive shaft boots
- Replace engine oil using Mobil 1 synthetic
- Replace engine oil filter using OE Nissan
 - Replace engine coolant
- Inspect differential oil (front and rear)
 - Inspect transmission oil
 - Inspect exhaust system
- Inspect steering gear and linkage
 - Replace in cabin micro filter
 - Inspect drive belts
- Inspect fuel lines and connections
- Inspect fuel tank vapor vent system
- Adjust tire air pressure and reset tire monitor
 - Road test

Prices from \$395.33

Starting at \$395.33 plus tax hazardous disposal fees, and shop supplies. August 2012. Prices subject to change without notice.

30,000 mile Service / 30 month

The 12 month or 12,000 mile service interval is essential in ensuring critical mechanical systems are performing at the highest level. Engine Balance / Tuning services and Transmission Optimization services are performed to maintain peak GT-R performance.

- Inspect steering, linkage, axles and suspension components
 - Inspect safety restraint system
- Inspect brake pads, rotors, lines, and cables
 - Inspect drive shaft boots
- Replace engine oil using Mobil 1 synthetic
- Replace engine oil filter using OE Nissan
 - Replace engine air filter
 - Inspect exhaust system
- Adjust tire pressure and reset tire monitor
 - Road test

Prices from \$363.20

Starting at \$363.20 plus tax hazardous disposal fees, and shop supplies. August 2012. Prices subject to change without notice.

36,000 mile Service / 36 months

The first major service interval for your Nissan GT-R. Engine Oil, Transmission Fluid, and Differential fluid are replaced. Transmission Clutch settings are also optimized during this service using Nissan Consult III software.

- Perform engine diagnostic
- Inspect steering, linkage, axles and suspension components
 - Inspect safety restraint system
 - Inspect steering gear and linkage
- Inspect brake pads, rotors, lines, and cables
 - Inspect drive shaft boots
- Replace engine oil using Mobil 1 synthetic
- Replace engine oil filter using OE Nissan
 - Replace transmission oil and filter
- Replace differential fluid (front and rear)
 - Replace brake fluid
 - Inspect engine drive belts
 - Inspect Exhaust System
- Inspect steering gear and linkage
- Adjust tire pressure and reset tire monitor
 - Road test

Prices from \$1,254.55

Starting at \$1,254.55 plus tax hazardous disposal fees, and shop supplies. August 2012. Prices subject to change without notice.
